

SHOT SHOW 2018 - A VERY POSITIVE OUTCOME FOR CYBERGUN

February 14th, 2018

CYBERGUN, global leader in airsoft, has had a very positive outcome from its participation in the 2018 edition of the SHOT Show, the worldwide meeting of shooting professionals that took place from January 23rd to 26th in Las Vegas.

We processed \$2 million as orders over 4 days, matching the results of last year with an increasing product mix that allows to aim for significantly higher gross margin rates.

Moreover, CYBERGUN escalated its rise in the strategic segment of the military and the training of law enforcement agencies. Thus, two major military contracts are being finalized, including:

- A contract with a large global private security agency and;
- A contract with a US government agency.

We are talking about delivering several thousand pieces over 2018.

Hugo BRUGIERE, CEO of CYBERGUN, stated: *"This SHOT Show proves once again that the US market remains a primary focus for CYBERGUN Group and that there are plenty of opportunities to grow our business once our reorganization is completed. Beyond the commercial success, this trip to the United States allowed me to see where we stand with our teams on-site and to acknowledge the recovery of our American subsidiary which published positive in EBITDA last December, 3 months in a row. "*
