Cybergun, a world leader in recreational shooting, today announced record revenue for fiscal 2010 (April 2010 to March 2011). Sales totaled €73 million, up 43% year-over-year (29% on a comparable basis, i.e., excluding foreign currency effects, acquisitions, and divestitures), a level markedly higher than the annual average of 20% over the last decade. The base effect, however, was not neutral as Cybergun posted 19% growth in 2009, a year shaken by the global financial crisis. In three years, the Group has doubled in size!

The tremendous commercial success of Cybergun's products is once again confirmed, whether in the U.S. (54% of billings), in Europe (36%), or increasingly in Asia, where month after month the Group is adding to its customer portfolio. This robust momentum is also explained by the Group's winning acquisitions strategy: Cybergun now covers most of the world's trading zones, from Asia to the West Coast of the United States.

If 2010 beat expectations (growth target of 20%), 2011 looks to be just as strong. The acquisitions of SMK Sportmarketing and legendary brand Swiss Arms both strengthen Cybergun's positions. Meanwhile, the merger with I2G, approved by the shareholders at the extraordinary meeting of April 1, 2011, offers new prospects for growth in the world of video games. Ultimately, Cybergun is expected to again post annual growth exceeding 20% for fiscal 2011 and 2012, while improving its earnings per share.

Cybergun will release its annual financial results for fiscal 2010 on June 8, 2011, after market close.
