Our "Innovative Enterprise" label has been renewed for 3 years by Bpifrance

Cybergun, a world-leader in the leisure shooting market, is pleased to announce that Bpifrance has awarded them the "Innovative Enterprise" label for a further 3 years.

Thanks to its unique portfolio of exclusive worldwide licenses and its policy of ongoing innovation, Cybergun is now a leading company in the sector. The label recognises the innovative nature of Cybergun products.

The "Innovative Enterprise" label allows Innovation-focused mutual funds (FCPI) to recognise their share holdings in Cybergun in the mandatory portion of their investments in innovative enterprises¹.

Cybergun markets between 50 and 60 new products each year, many of which are technologically innovative, such as the *Electronic Power Booster* (EPB), which is now fitted to some replicas and really improves ease of use.

Denis Wittner, Head of R&D for the group, says: *"It's a proud moment for Cybergun and all the people who work there. We have demonstrated that we are not just experts in manufacturing replicas, we also have an innovative and dynamic R&D policy."*
